

CAST Practice Test

Are your teachers ready for
the upcoming CAST?

Science4Equity.com is a subsidiary of Education4Equity.

WE SPECIALIZE IN RAISING STUDENT SCORES IN NGSS

Practice Tests

Access to a 5th grade, 8th grade, or high school NGSS aligned practice test that prepares your students for the CAST.

Professional Development

Give your teachers access to an approved professional development course; teachers have the option to pay an additional fee to receive college credit for the course.

"If your district is looking for a valuable practice assessment opportunity in the absence of ICA and IAB style progress monitoring assessments like those available for math and English language arts, then you would do well to explore this tremendous option for science assessment offered by an organization that truly desires to advance the learning of all students."

Michael Lance

8th Grade Science Teacher
Stella Middle Charter Academy School District
